**Subject:** RE: Report Provider Services

Hello Phil,

Thanks for your reply – we really appreciate it.

I've read through the issue paper – this is really helpful, so thanks for that as well.

Given the extent of work we provide in this space, I have a response (as follows) to question 39 - *Are there any other categories of disbursement which should be captured?*

Yes - to include 'sundry or other expenses' (as they are referred to in the ILARS funding guidelines) which is where the Suitable Employment/Vocational, Functional Evaluation and Work Capacity Assessment Reports or other reports not covered in the Examinations and Reports fees order, are referenced.

I note that other SIRA fee schedules e.g. psychologist report fees are covered in the Guidelines, and so would comment that including those in the range of MRP's services that IRO will reimburse.

We will keep our eyes on IRO's website for any updates in this area, particularly dates and processes for IRO considering new MRP (or similar providers).

Best regards

Dominic Manca
